Can you see the Possibilities?

We cycled 2 members with DOUBLE reentries with just three purchases! But that's not all the earning potential. On every cycle each member receives a new position into XMP 3x1 Level 2.

**Every Cycle pays out 0.40 XRP,
0.05 XRP Matching bonus to
your sponsor and you receive a
position in XMP Level 2 – 3x1.**

**Each time you cycle you receive
DOUBLE REENTRIES into the XMP
Level 1 – 3x1**

**This now becomes a true
doubling system.**

Once you cycle the main 3x1, receive double reentry plus new entries to the next level once you cycle a level.

XMP 3x1 Levels 1 – 6

The main earner we are trying to sustain is our LRP program. This is where you purchase a position for 5 XRP and earn each day by logging in and viewing 1 login advertisement. You can see on each cycle we place a portion of the cycling funds in the LRP pool. Upon each cycle you will receive a Mega Line position.

Login Rewards Pool (LRP)

Your first purchase will be a subscription for 20 XRP. This subscription will include 1 LRP or Login Rewards Pool position. This position is worth 5 XRP and goes into a pool with everyone else's LRP purchases.

You will earn 2% referral commission 5 levels deep on all LRP purchases.

You will receive Banner, text and login ad credits on all purchases, so it is important to use them, especially the Login ads.

Login Rewards Pool

After you purchase your subscription, you will be free to purchase more 3x1 positions as well as LRP positions.

All LRP positions cost 5 XRP and each day you login you qualify yourself to earn 2% of the collective pool for each LRP position you own. Our Program is designed in the XRP currency so as XRP rises in value, so does your LRP rewards value.

All LRP positions Mature at 7.5 XRP.

Mega Line Doubler

10% Referral
Commission

Feeds LRP Pool
with each cycle.

0.60 XRP Daily
subscription.

How the Doubler Works

If you choose to participate in our Mega Line Doubler this is how it will work.

You will be able to setup a DAILY subscription for only 0.60 XRP per day.

You only setup 1, so your monthly obligation is 18 XRP, but it bill daily at 0.60 XRP.

How the Doubler Works

After you setup your first 0.60 XRP subscription you are now free to purchase as many doubler positions as you would like.

Once your position gets to the top and cycles out of the line, you will receive 1.00 XRP which is 158%.

0.20 XRP will be instantly added to the LRP pools.

Your subscription will renew everyday. If you do not have enough funds in your Purchase or Available wallet when your subscription is due, all of your positions will move down 1 position in the line for each hour your subscription is late.

How the Doubler Works

The Doubler works like this.

Once a person purchases a Mega Line Doubler for 0.60 XRP Approximately 0.50 XRP goes into the line.

0.06 XRP is deducted for referral commissions and 0.04 XRP is deducted for a small admin fee.

As new positions come in their values will be added to cycle out whoever is at the top of the line.

Each purchase will credit you login advertising.

How the Doubler Works

Each position is 0.60 XRP

1	1 XRP was paid out	
2	1 XRP was paid out	
3	0.50	0.20 xrp goes to LRP POOL
4	0.50	On each cycle out!
5	0.50	
6	0.50	0.10
7	0.50
